

## CMPS-235

### Assignment #1 due September 4, 2007

The purpose of this assignment is to familiarize you with the basics of html such as text formatting, image usage, and links.

You will develop a simple html document which will represent a simple web page for yourself. This page when rendered in a browser must be formatted as follows:

## My favorite Ice Cream

This is my favorite ice cream and blah blah blah...

### My favorite links:

- I like [airplanes](#)
- I like [diving](#)
- Did I mention I like [ice cream](#)?

---

Requirements as shown above:

- The title is bold and larger and centered and not black in color
- There is a picture
- There is a favorites link which contains three links
- Try to do some variations of formatting in the text that is right underneath the picture
