Pictured are the standard hazard symbols used in the GHS. Symbols can be used individually and in combinations to define the specific hazard(s) of the chemical.

**Pictograms**
Graphics intended to convey specific hazard information.

**Signal Word**
Indicates the relative level of the hazard's severity. “Danger” and “Warning” are the GHS signal words.

**Hazard Statements**
A phrase assigned to a hazard class and category that describes the nature of the product hazards.

**Precautionary Statements**
Describes recommended measures to minimize or prevent adverse effects resulting from exposure.

**Supplier Identification**
The Supplier Identification is the name, address and telephone number of the manufacturer or supplier.

**Product Identifier**
Should match the product identifier used on the Safety Data Sheets.

**Location of GHS Information on the Label**
The GHS hazard pictograms, signal word and hazard statements should be located together on the label. The competent authority may choose to provide a specified layout for the presentation of these and for the presentation of precautionary information, or allow supplier discretion.
