

Low Completer Report

Southeastern Louisiana University

The attached report contains completers and enrollment information for all active degree programs for the most recent three years (2010-2011 through 2012-2013), it is being provided in an effort to identify programs that could be at risk in future low completers reviews. All degree programs identified in the BoR Inventory of Degree and Certificate Programs are included in this report. Post-baccalaureate certificates (PBC) and Post-Master's certificates (PMC) are not. The completers information is for the academic year, while the major information is based on the Fall semester of each academic year.

Based on the January 26, 2011, Board of Regents minimum requirements of an average of 8 completers per year over a 3-year period for undergraduate programs, an average of 5 completers per year over a 3-year period for master's degree programs, and an average of 2 completers over a 3-year period for doctoral programs, the following programs could be at risk:

- BS Chemistry
- BS Engineering Technology
- BS Physics
- BS Math
- MAT Special Education Early Intervention: Birth - 5

The following programs do not yet have 3 years of graduates, however they could potentially be at risk due to low completers:

- BS Elementary Education & Special Education GR 1-5 (2 years of graduates)
- BS Middle School Education & Special Education GR 4-8 (2 years of graduates)
- BS Radiologic Sciences (0 years of graduates)
- Doctorate of Nursing Practice (0 years of graduates)
