

Communication Policy for the Louisiana Science Olympiad

In an effort to foster open and clear communication, the board of directors of the Louisiana Science Olympiad enacts this policy effective August 1, 2016.

All communications with Louisiana Science Olympiad should go through the main team coach for the school or organization. Parents interested in forming teams may contact the Louisiana Science Olympiad, however all concerns over event performance, dates of events, etc. should be directed to the team's coach first.

This prevents, as much as is possible, hearsay and miscommunications.

Communications from students will not be answered. Please contact your coach with questions you may have.
